HAND GLOVE

Extreme PC gamers will be familiar with Intensity of competitive gaming and the physical strain it puts on their wrist and finger.

Left unchecked, such continuous Intensive activity could possibly lead to compression neuropathy and eventual permanent nerve damage such as Carpal Tunnel Syndrome (CTS).

The Thorax gaming glove is an idea that helps alleviate the strain and helps gamers play better, for longer.

FEATURES:

- Professional adjustable Gaming globe for hard-core gamers.
- Made of high-quality materials for ultra-durable intensive use.
- Exclusive Steel-Rod hand support technology for extreme wrist protection.
- Hand glove hardness selectable by users: medium without the Steel-Rod and maximum with the Steel-Rod inside.
- Recommended also for any intensive mouse-use activity like graphic design for superior comfort and health protection.
- One Size Fits All.
- Neoprene at the core layer of the glove´s fabric can gain maximum agility and help your hands warm in air-conditioned tournaments.
- Adjustable Velcro can easy wear and remove.
- Steel-Rod prevents painful wrist flexion and holds the wrist in neutral position to promote healing and prevent damage.
